PROJECTS

WealthWise

Finance Tracker

- Developed Wealth Wise, a financial management platform for tracking expenses, managing investments, and planning budgets.
- Built with modern web technologies to ensure a user-friendly interface and a secure, scalable backend.

Funrep Game

Gaming Site

- Developed Funrep.org, a gaming community website for sharing content and engaging with users.
- Utilized Next.js for fast performance and seamless routing across dynamic pages.
- Focused on responsive design and community-driven features to promote user interaction

Grind Fit

Gym App

- Created Grind Fit, a gym and fitness platform that delivers personalized workout recommendations.
- Built with ReactJS, Vite, and Tailwind CSS with a sleek custom UI and smooth animations.
- Designed to enhance user engagement through a responsive and performance-optimized interface.

WORK EXPERIENCE

Nov 2023- Apr 2024

Techsum Digital Solutions - Pune

Full Stack Web Developer

As a full-stack developer, I used WordPress for web design, PHP for backend, and HTML, CSS, and JavaScript for front-end. I utilized AWS for cloud services, optimized performance and security with Cloudflare, managed servers via Termius, and created user-focused designs using Figma and Canva.
